

Fourth Edition
Young Researchers Overseas Day
Virtual Conference, 15 December 2020

With the support of  Royal Academy for Overseas Sciences   Vlaanderen  SPAIN arts & culture

On Tuesday, 15 December 2020, the fourth Young Researchers' Overseas Day is organized by the Royal Academy for Overseas Sciences (RAOS).

Since this edition of the Young Researchers Overseas' Day need to be organized virtually, we adapted the operating method for the 2020 edition. Instead of conventional oral sessions in a conference room and of poster sessions in which young researchers could present their ongoing work in an interactive way, we conceived a procedure that will guarantee as good as possible the same degree of communication between the speaker and the audience and that will guarantee the same exchange facilities in the best possible way in a web conference environment.

The exact instructions to register and join the *Young Researchers' Overseas Days 2020* will be made available very soon.
